COUNTY PROVIDES $31,000 FOR ROAD WORK NEXT YEAR

SHARP INCREASE OVER 1915

Less than a dozen citizens, including the mayor, the county judge, and several other officials, attended the meeting of the committee on road work last week. The committee recommended that $31,000 be provided for road work in the county. This is a sharp increase over the $15,000 provided in 1915.

The principal divisions covered in the estimates were: streets, alleys, and sidewalks, $15,000; roads and highways, $16,000; and bridges and culverts, $1,000. The $31,000 is needed to provide the beauty of the county with the necessary funds to make the roads safe and the streets clean.

The county treasurer, Mr. Johnson, has been working on the estimates for several weeks. He has been working hard to meet the demands of the county's citizens. He has been working hard to ensure that the roads are safe and the streets are clean.

COUNCIL PLACE TAXES LEVIES AT 18.65 AND 16.1MILS

In the absence of any other business, the council adjourned until next meeting.

Continued on Page 7.

COUNCIL DECREES FAIBLE

The council has decreed that the amount of tax levies be reduced to 18.65 and 16.1 mills. This is a decrease from the previous year, which was 18.85 and 16.8 mills.

$131,000 FOR ROAD WORK NEXT YEAR

From Page 1.

A number of federal and state roads to be built or improved in the next year included in the plans is the 20-mile stretch of the road from Port Angeles to Clallam Bay including the short road connecting the town of Port Angeles with the Clallam Bay Bridge. At the time of the 1914 road survey, the road was only 1 mile long, but in 1932 it was extended to 20 miles. The road was to be improved with additional funds from the federal government. The project was included in the plans for road work in the next year.

The estimate of $131,000 for road work was submitted to the county commissioners by the state highway construction engineer. The estimate included the cost of building the road, grading, and surfacing. The road was to be improved with the addition of new bridges and culverts to replace the existing ones. The project was to be completed by the end of the year.

The total of $131,000 was the largest estimate submitted for road work in the next year. The project was to be financed by federal funds, with the state sharing in the cost through grants-in-aid. The project was considered important for the area, as it would provide better access to the Clallam Bay Bridge and improve safety for local residents and visitors.

Don’t Overlook Quality

It is better to say, “My clothes must look right and wear well,” than to waste your money up a windmill like this. We do not want to be caught by the fault. True ECONOMY, the other is “False Economy.” We advise a happy medium for a new fall suit—one that will be satisfactory in every particular. Special attention given to the fitting of every garment.

Our Added Attraction This Week

In the up-to-date CLEANING AND PRESSING DEPARTMENT, it is the running 264 days a year. Every person knows the necessity of a plant like this. “We do not use poor soap,”—modern methods always.

Take a hint from the Leading Cleaners and Pressers and let them make your suit look like new again.
